TEJAKRISHNA BADIGANTI

Full Stack Software Engineer | Java | Python | Spring Boot | Microservices | React.js | AWS | Azure | AI
Hyderabad, Telangana, India | tejakrishnabadiganti1234@gmail.com | +91 8919537838 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4.6+ years of experience delivering scalable enterprise solutions across fintech, banking, and tax compliance for clients including **USAA and Vertex Inc.** Brings end-to-end **SDLC** expertise in **Java, Spring Boot, React.js, microservices, AWS, and Azure**, combined with experience developing **AI agents** and integrating multiple **LLMs**. Uses **Claude, Specification-Driven Development (SDD), and Research, Plan, and Implement (RPI)** methodologies to accelerate delivery. Contributed to **DevOps, Center of Excellence (CoE), and Vertex Agent Platform (VAPOR)** initiatives spanning engineering improvements, enterprise metrics, and application delivery, with recognition for **innovation, internal platform development, and multiple hackathon wins**.

SKILLS SUMMARY

Languages & Core:	Java 8/11/17, Python, TypeScript, JavaScript, Object-Oriented Design, **SOLID Principles**, System Design
Frameworks:	Spring Boot, Spring Data JPA, Spring Cloud, Hibernate, JAX-RS, React.js 18, Node.js 18, Dependency Injection (DI)
AI & Agent Engineering:	AI Agent Development, LLM Integration, Multi-LLM Integration, GPT Models, Agentic Workflows, AI-Powered Automation
AI-Assisted Development:	**Claude**, GitHub Copilot, Cursor, Rovo, **Specification-Driven Development (SDD)**, **Research, Plan, and Implement (RPI)**
Messaging & Caching:	Apache Kafka, Redis, **Valkey**
Microservices Patterns:	Microservices, API Gateway, Service Discovery, Circuit Breaker (Resilience4j), Event-Driven Architecture, Distributed Systems, Resiliency Patterns, Design Patterns
Databases:	MySQL, PostgreSQL, SQL Server, DynamoDB, SQL Query Optimization
Cloud & Infrastructure:	**AWS** (EC2, ECS, Lambda, Fargate, **S3**, RDS, IAM, CloudWatch, CloudWatch Alarms, SQS, SNS), Microsoft Azure, **Docker**, OpenShift
Version Control & CI/CD:	Git, **GitHub** Actions, GitLab, Maven, Gradle
APIs & Testing:	RESTful APIs, REST API Management, API Integration, API Documentation, API Security, JWT, OpenAPI, Swagger, JUnit, Mockito, Postman, **Playwright**, Unit Testing, Integration Testing, Test Automation
Engineering Practices:	**Multithreading**, Connection Pooling (HikariCP), Idempotent Processing, Logging, Code Reviews, Agile/Scrum, SDLC, Elasticsearch, Kibana
Full Stack & Initiatives:	End-to-End Application Development, **AI-Assisted Software Delivery**, Engineering Workflow Automation, **Unified Metrics**, Platform Improvements, DevOps Collaboration

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Accenture | **Client: Vertex Inc. – GCC Project** | Hyderabad, India | Dec 2025 – Present

- Designed and developed **AI-powered engineering agents**, including **PR Fix and Fail-to-Fix agents**, integrating multiple **LLMs** to automate development workflows, code analysis, and issue resolution; collaborated with the **VAPOR (Vertex Agent Platform)** team to build cluster-based AI agents for end users.
- Built **TechScout**, an end-to-end application using **React.js and Node.js**, contributing to frontend development, backend services, API integration, and delivery; also enhanced the **Connected Tax Platform (CTP)** with application features, chat-based interfaces, and AI-agent capabilities.
- Contributed to **Center of Excellence (CoE)** initiatives by developing reusable skills, commands, and AI agents that standardized workflows and improved developer productivity; collaborated across **AI engineering, DevOps, CoE, and platform development teams** on organization-wide solutions and engineering practices.
- Contributed to the **Vertex Unified Metrics Platform** to support centralized, consistent engineering measurement, while supporting **DevOps and deployment workflows**, including n8n deployments and automation that streamlined delivery and operations.
- Applied **Specification-Driven Development (SDD)** and **Research, Plan, and Implement (RPI)** methodologies with **Claude** to structure requirements, plan implementations, and accelerate AI-assisted software delivery.
- Developed an **in-house quiz application** as an alternative to third-party solutions, earning organizational recognition and prize money. Also achieved **multiple hackathon wins** through innovative application development and AI-driven solutions.

Project Engineer | Wipro | **Client: USAA (United Services Automobile Association)** | Bengaluru, India | May 2022 – Dec 2025

- Developed and maintained enterprise applications using **Core Java, Spring Boot, Spring Cloud, Spring Data JPA, RESTful Web Services, and microservices** across banking, insurance, and enterprise-security projects for **USAA and Citi Bank**.
- Contributed to USAA's **Classic to Talon Migration (C2T)** by analyzing legacy integrations, designing as-is and to-be API flows, and developing migration strategies; designed, documented, and published REST APIs using **OpenAPI and Swagger 2.0** to improve discoverability and developer onboarding.
- Integrated **downstream APIs** for secure microservices communication, optimized **SQL queries and database operations**, and implemented unit tests using **JUnit and Mockito**, achieving **85%+ test coverage** and helping reduce production defects.
- Deployed and monitored applications on **OpenShift**, analyzed pod logs through the OpenShift Web UI, and used **Kibana and Elasticsearch** to investigate application behavior, traffic patterns, active server instances, and production issues.
- Contributed to Citi Bank's **Service Account Migration (SAM)** by migrating service accounts to **CyberArk**, implementing secure integrations with **Core Java and Spring Boot**, and decommissioning deprecated accounts to strengthen credential security and reduce attack surface.

EDUCATION

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering (ECE) | Aditya College of Engineering and Technology, JNTUK | Andhra Pradesh, India | Jun 2018 – Jun 2022 | **82%**

AWARDS & ACHIEVEMENTS

- **Best Project Contributor:** Recognized for contributions to a legacy-system migration initiative.
- **Top Agile Performer:** Recognized for consistently exceeding sprint goals and achieving **95%+ sprint velocity** across two consecutive quarters.
- **Victory League Award & Pragati Award:** Recognized for contributions and performance.
- **Accenture Java Full Stack AI Hackathon Winner:** Secured first place in an organization-wide hackathon across India.
- **Valkey Hackathon Winner:** Won an Amazon-collaborated hackathon focused on Valkey and caching technologies.

CERTIFICATIONS | Verify on Credly

Cloud & Infrastructure Certifications: Microsoft Azure Fundamentals (AZ-900), Azure Data Fundamentals (DP-900), Azure AI Fundamentals (AI-900), Azure Administrator Associate (AZ-104), Azure Database Administrator Associate (DP-300), Google Associate Cloud Engineer, Google Professional Cloud Architect, AWS Certified Cloud Practitioner, AWS Certified Solutions Architect – Associate.

Other & AI Certifications: Claude Certified Associate – Foundations (CCAO-F), Claude Certified Developer – Foundations (CCDV-F), Claude Certified Architect – Foundations (verify official code), Microsoft Security Fundamentals (MTA), Arduino Fundamentals.
